

Sedibeng District Municipality: Development Planning is mandated to ensure integrated spatial development planning and to promote good land-use management in an informed and integrated development planning and to secure land development rights to optimise the development potential of Sedibeng District Municipality and its Local Municipalities (Lesedi LM; Midvaal LM; and Emfuleni LM).

The Sedibeng District Municipality has produced a collective strategic Spatial Development Framework (SDF) document with inputs and participation from its local municipalities. The SDF is one of the strategic documents in the municipality that is used to guide land use management and development in identifying key economical opportunities and future planning of the region. The SDF ensures that planning is strategic, direct, relevant and recent within the District.

Download the Sedibeng 2009/10 SDF which includes the Draft Local SDFs of Emfuleni, Midvaal and Lesedi municipalities. People are encouraged to make comments on this review document via the IDP public participation process.

NB: The Copies of this document are also available in Development Planning Department at House and Home Building (Sedibeng District Municipality) .
